	Large Format		Desktop	
	Dye Inks	Pigment Inks	Dye Inks	Pigment Inks
HP	*** (1)	X	***	X
ENCAD	*** (2)	X		
EPSON	***	X	***	X
CANON	***	X	***	X

*** = Excellent ** = Good * = Fair

- HP5000/5500 printers will require roll edge stripes for which we have **F102CMET.2ES**

Notes

(1) Some older HP printers default to pigment black ink for plain black paragraph text, to avoid this problem incorporate the text into the image.

(2) We recommend that Encad printers (such as the 1000i) fitted with fans and heated platens to assist drying should be operated with the fans on and heat off. We also recommend a maximum ink density of circa 200%.

Applications and characteristics

- The high gloss mirror like finish gives a very attractive appearance for high colour graphics.
- Creates metallic colours - print orange, get Gold!
- Superb definition and trueness of colour, fast drying.
- Get noticed in 'Point of Purchase' and promotional applications.

Recommended conditions for use: 10°C - 30°C, 30% - 65% RH
for storage: 10°C - 30°C, 20% - 50% RH

Material Handling, and Shelf Life: 18 Months
