ENCAD	***	***

*** = Excellent * = Good =Fair

Applications and characteristics

- § A widely compatible matt white calendered vinyl with a permanent adhesive.
- § It can be printed with both dye and pigment based inks.
- § For exterior use we recommend pigment based inks to reduce colour fade and the use of a 'cold seal' over-laminate. Please ensure edges are protected to prevent water ingress.
- § This product is not suitable for conventional, long-life vehicle graphic applications.

CAUTION: Some laminates such as Formica may cause the surface to behave like a permanent adhesive after time.

Not recommended for exterior vehicle use.

Customers should make their own assessment regarding suitability.

Recommended conditions for use: 10°C - 30°C, 30% - 70% RH

for storage: 10°C - 20°C, 20% - 50% RH

Material Handling, and Shelf Life: 12 Months
