Applications and characteristics

- Framed art, indoor signs and promotions
- Coating is water-resistant, has a short drying time and allows for long lasting prints with pigmented inks.
- Can be stretched over frames without cracking.
- Ideal for high quality graphic arts applications on ink jet plotters and printers.
- Due to the presence of natural components in the base material, the surface characteristics may vary slightly

Recommended conditions for use: 10°C - 30°C, 30% - 65% RH
for storage: 10°C - 30°C, 20% - 50% RH

Due to the natural components in the material, it tends to curl when relative humidity is quite high. We recommend the material is kept in its original packaging until immediately prior to use.

Material Handling, and Shelf Life: 18 Months
